

SYNAPPX™ GO PRODUCTIVITY WHEREVER YOU GO!

What is Synappx Go?

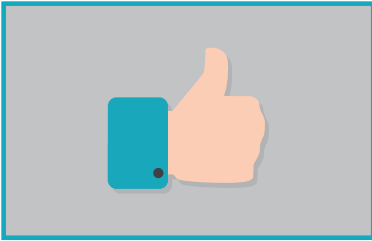

Smartphones have changed the way we live and work, and now they can change the way we collaborate in our workplaces. With Synappx Go, you can share, copy, scan and print your content on the go. Scale content easily to a large display and scan documents to and release print jobs from a multifunction printer—all right from your phone whenever and wherever.

Challenges:

- » Organizations need to provide touch-free, safe work environments without compromising productivity
- » Mobile device adoption is strong
There is an increased dependency on mobile devices
- » Employees often cannot access content or connect devices when they are unfamiliar with the technology

Synappx Go Advantages:

- » Helps users safely operate shared office equipment using their mobile devices
- » Uses employee mobile devices—familiar technology—to help eliminate training
- » Simplifies operation with one application to scan, print and display content

Copiers and Displays Are More Personal than Ever!

Synappx Go helps you do more as you move through your day, all from your phone. Make your workplace smarter and safer, leveraging the technology you have in place to facilitate spontaneous collaboration.

- » Just use the app, no need to touch or learn the equipment
- » Set personalized scan settings and cloud storage access to save time
- » Allows contactless operations on commonly-shared devices for key Synappx Go features

Help Simplify Document Copying, Scanning and Printing

No need to touch and learn the commonly shared printers. Copying, scanning and printing on a Sharp copier is easier than ever! Just a few mobile phone taps on the NFC tag.

- » Safely and remotely operate Sharp copier to make a copy from your smartphone.
- » Maximize convenience and privacy with the Synappx Go print release feature
- » Directly print documents from your cloud service when they are needed.
- » Scan documents to your email address, a group of people, or select cloud storage services.

Collaboration on the Go!

Synappx Go helps collaboration happen anywhere and anytime with enabled displays. Your team can meet not only in a meeting room but also in a huddle area or cafeteria. Even hallways can become collaboration workspaces.

- » Simply tap the NFC tag to display your content on the Sharp display
- » Team members can also tap to retrieve content and collaborate
- » Modified content is saved back in the original locations

Track Touchpoints in the Workplace

Health and safety has become a key consideration for many organizations. Now Synappx Go offers a "Check In" feature with NFC tags to help track employees' touchpoints in the workplace.

- » Check In at common work areas such as break rooms and meeting rooms
- » Check In reports allow administrators to track touch points
- » Check In at devices by using Synappx Go

Synappx Admin Portal for Central Management

The Synappx Admin Portal allows you to track and manage Synappx Go and Synappx Meeting products from one location. Here administrators gain central control of all necessary components of Synappx Go and Synappx Meeting. Visualized data is available to give administrators insight into organizational trends.

Security Is Our Number One Priority

Security is always at the forefront of Sharp's innovative technology. With Microsoft® Azure, Microsoft® 365, and Google™ Workspace technologies and security best practices, Synappx applications and services are protected by layered security. To learn more about the Synappx platform and service security, download our security white paper.
